Ηi,

I heard that you are thinking about replacing AIR 1 with another type of FM radio. PLLLEEEEAAAASSSSEEEEE don't do that. That would be so horrible. Air 1 has been such a blessing to my friends and I. It is such a great radio station to listen to and one of the reasons we listen to the radio. Without it, personally, the radio would be dull and we would be glued to the TV. The service provided by them is awesome! Non-stop christian music whenever you turn on the radio. It's in the public interest to keep this station because if you replace it, you are affecting more people than you think. A unbelievable number of people love listening to this station and are blessed by it each day. Please reconsider and do not take this station off because it is so awesome and without radio would be pretty dull.
